## ARNETTS IN SERVICE

**NONE OF THE FIVE SONS OF MR. AND MRS. E. W. ARNETT HAVE BEEN DISCHARGED**

In spite of the fact that Mr. and Mrs. E. W. Arnett, of 311 North Jackson street, have five sons in service with the U. S. Army or Navy, not one has yet been discharged. Mrs. Arnett states that her sailor son, Harold Arnett, who was here on a Christmas furlough, is now back with his ship at Pelham Bay, New York. His younger brother, Wilson, 21 years of age, who is overseas and had expected to be sent home ere this, has been transferred to a reconstruction corps in France which he writes is like a big factory. Between 5000 and 6000 soldiers are at work there and about 2500 German prisoners. He has been in France since August. He writes there is mud enough there for an entire world. Robert Arnett is at Norfolk, Va., and has put in an application for discharge, but does not know when it will come. Lieutenant Richard Arnett is overseas, but wrote recently that his parents need not be surprised to receive a telegram any day announcing his return. Lieutenant Claud Arnett, also overseas, has not been heard from since Christmas, but like the rest of his brothers was perfectly well and the family is looking for his return very soon.

## B. P. O. E. INITIATION

**FOUR NEW MEMBERS ARE ADDED TO THE ROSTER OF THE GLENDALE ELKS' CLUB**

About one hundred and fifty members attended the meeting of B. P. O. E., 1289, at the Elks' Club Monday evening. The business session was of considerable importance as many reports were received, matters of importance were discussed at length. Four new members were initiated as follows: Clarence C. Buck, of Tujunga, and Harry McCartney, Earl Patterson and Guy Lamoreaux, of Glendale. Following the session the usual lunch was served.

Soldier members are returning every day from camps in this country and abroad and the Club is already planning a reception to be given in their honor when the majority have come home. The date will depend, of course, on the rapidity with which demobilization takes place, but it will probably not take place before March or April.

**EXPECT COMMISSIONS**

Harry and Mark Francy, who have long been in service at Camp Lewis, have been assured that a commission will be theirs as a reward for their hard work and long stay in camp to assist in mustering out their comrades in arms.

## ENTERTAIN MAJOR

**McGILLIS FAMILY ENTERTAINS OLD FRIEND STATIONED AT CAMP KEARNY**

Mr. and Mrs. J. N. McGillis and their son, Howard, recently returned from overseas, had great pleasure Sunday in the entertainment of Major W. C. Thomas, now located at Camp Kearny. The major's mother is an old friend of the McGillis family and they had much of interest to talk about. He has been in the regular army for three years and expects to continue in the service for two years more. He has made wonderful progress as he is but 27 years of age. As he had no chance to go to France he was greatly interested in Howard's experiences there and his collection of war souvenirs.

Mrs. McGillis reports that Hill McGillis, still in France, was greatly surprised when he got Howard's letter postmarked U. S. A. as he had figured that neither one of them would get home for three months. He writes he can imagine how Howard is keeping his feet stuck in the fireplace and enjoying himself. He is in the post-office service and says that more than 25,000 Christmas boxes are piled up at his station lacking proper addresses and that they are still coming in at the rate of eighty sacks a day. In some instances the paper in which they were wrapped was flimsy and has been torn off. In others, the address was imperfect and there was no return address so they cannot be sent back to the persons from whom they came. He says he is working day and night and it has taken him 23 years to learn that hard work doesn't hurt him, as he never felt better in his life.

WEATHER FORECAST: Showers tonight and Wednesday.

**WAR TIME NECESSITY MAKES CAKE CHEAPLY**

In a successful effort to find a substitute for wheat flour cakes, L. C. Russell of Russell's Purity Bakery developed what he calls California fruit cakes which are made of cereals and fruits without a great deal of white flour. The ingredients of the cake cost less than any appetizing equal with the result that the bakery is specializing on this particular delicacy.

## SERGT. MERLE ECKLES

**AT ROMANTIN, FRANCE, DOING SALVAGE WORK ON ARMY PLANES**

Dr. and Mrs. J. E. Eckles are receiving frequent letters from their son, Sergt. Merle Eckles, who is stationed at Romantin, France. He has no idea when he will be sent home, but is hoping it will be about March 1st. All the regular work assigned his company has been accomplished, but they are still kept closely occupied with salvage work, their last job being on some army planes. He recently had a two weeks' furlough in which he visited Paris and environs and enjoyed himself immensely. No one could imagine, he said, the beauty of many of the things he saw. He was especially impressed with a historic abbey where he spent considerable time. It crowns a small mountain with buildings extending down the sides, making a charming picture. He just missed getting his commission. He had passed his examinations and if the armistice had been delayed a day or two he would have had the shoulder straps.

## POST WAR DUTIES

**REV. CLIFFORD COLE MAKES FINE ADDRESS BEFORE INTERMEDIATE P.-T. A.**

The regular monthly meeting of the Intermediate Parent-Teacher Association was held at the Intermediate School at 2:45 p. m., with the president, Mrs. Blake Franklin, in the chair.

After a short business session a fine program was enjoyed. The speaker of the afternoon, Rev. Clifford Cole, interested all present with a fine address which was entitled, "Let Us Finish the War." The keynote emphasized was service to humanity at all times and the duties yet to be performed in war service.

Mr. Cole also strongly advocated the use of the English language by all peoples in the United States.

Mrs. Hartley Shaw sang delightfully "The Rose of No-Man's Land" and "Ring Out, Sweet Bells of Peace." She was accompanied upon the piano by Mrs. Harry V. Brown.

Mrs. Florence Kurtz gave a resume of the meeting of the First District of L. A. Congress of Mothers and Parent-Teacher Associations held in the Times Building in Los Angeles, and of the reports of legislative measures of interest to parents.

Mrs. R. K. Burr, chairman of education, announced that the association at its next meeting would have the pleasure of hearing an address by Miss Ruby Baugham, the supervising chairman of immigration of the Los Angeles Parent-Teacher Association.

Mrs. A. A. Barton, president of the local P.-T. A. Federation, was present.

**SOLDIERS RETURN**

Sergeant Jesse Flower, Corporal Winthrop Jackson, Sergeant Clarence Edwards and John College returned Saturday from overseas service, having received their discharges. They were in the Fourth Trench Mortar Battalion and were all enlisted in the Coast Artillery.

Howard Elliott, recently discharged from an ammunition train attached to the Thirteenth Division at Camp Lewis, has returned to this city, his former home.

Sergeant Howard Anderson and Wagoner Allen Bullis, who were overseas with ammunition trains of the American Expeditionary Forces, returned to Glendale today after having received their honorable discharges from the service.

**RAINFALL 1.07 INCHES**

The rain gauge of H. E. Bartlett which recorded .12 of an inch of rainfall yesterday forenoon added a little yesterday afternoon and a still bigger addition of 1.07 last night which has brought the total for the season to 7.66 inches.

## NAVY PROGRAM RESTORED

**STRICKEN OUT YESTERDAY ON POINT OF ORDER, PUT BACK TODAY IN APPROPRIATIONS BILL**

(Special Service to Glendale Evening News)

Washington, Feb. 11.—The House rules committee today favorably reported a rule restoring the big navy program to the navy appropriations bill. The measure had been stricken out yesterday on a point of order.

## DEPORTATION OF ALIEN AGITATORS

**I. W. W., BOLSHEVIKI AND OTHER RADICALS ARRESTED IN THE WEST TO BE SENT HOME**

(Special Service to Glendale Evening News)

New York, Feb. 11.—Fifty-four alleged alien agitators, including Industrial Workers of the World, radical leaders and Bolsheviki, sent here from Seattle and other western points for deportation, arrived early today and were sent to Ellis Island aboard a government tug. Aboard the tug the party engaged in a general first fight when one member was accused of being a department of justice spy. Guards finally restored order after a hard fight.

## BREST-LITOVSK RECAPTURED

**DISPATCHES FROM THE FRONT INDICATE THAT POLISH TROOPS HAVE RETAKEN CELEBRATED POSITION**

(Special Service to Glendale Evening News)

Warsaw, Feb. 11.—Polish troops have recaptured Brest-Litovsk from the Bolsheviki, it was declared in dispatches from the front arriving here today.

## STRIKERS RETURN TO WORK IN SEATTLE

**MILLIONS OF DOLLARS LOST IN OUTPUT OF FACTORIES AND SHIPYARDS AND IN LABOR WAGES**

(Special Service to Glendale Evening News)

Seattle, Feb. 11.—Although the strike committee ordered all union men to remain away from work until noon today, the hour set for ending the strike, street cars were in operation last night and this morning with union crews. Several other unions permitted their men to return to work, giving the situation the aspect of a clash in policy among the unions.

The dominant question today was the cost of the strike to labor, industry and the city, and whether there would be discrimination against the strikers by employers.

Leading employers said they did not intend to discriminate, but it was significant that all refused to permit themselves to be quoted directly.

There was no talk of open shops among responsible business men today.

Rough estimates of the cost of the strike were:

Lost output in shipyards and factories, $4,000,000.

Lost wages for 70,000 strikers averaging $5 a day, $3,375,000.

Heavy though unestimated inroads on city treasury for protective and emergency measures and into union strike benefit funds.

## KING GEORGE ADVISES PARLIAMENT

**URGES INCREASED FRIENDLY UNDERSTANDING BETWEEN U. S. AND ENGLAND**

(Special Service to Glendale Evening News)

London, Feb. 11.—King George, addressing the open session of Parliament today, urged an increase of friendly understanding between the United States and England. He declared: "The two countries should act together in the future."

The King praised the league of nations plan and expressed satisfaction with the progress made at the peace conference. "The peace conference," he said, "is distinguished by the most marked cordiality and good will and by complete agreement."

The King urged Parliament to study industrial problems, saying: "I ardently desire that the gift of leisure and prosperity be generally shared throughout the country. I hope you will spare no effort toward reaching the causes of existing unrest."

He recommended the fulfillment of the government's pledges to labor, increased housing accommodations and a plan of providing land for soldiers. A bill "preventing unfair competition by the sale of imported goods below the selling price in places where they are produced" was recommended by the King.

He urged constitution reforms for India.

Discussing Ireland, King George said: "The situation in Ireland has caused me great anxiety. I earnestly hope conditions soon will improve sufficiently to make possible a durable settlement."

## NEWS PAPER TO BE INVESTIGATED

**FEDERAL TRADE COMMISSION STARTS PRELIMINARY HEARING ON PRICES NOW BEING CHARGED**

(Special Service to Glendale Evening News)

Washington, Feb. 11.—The federal trade commission today began a preliminary hearing on the prices of news print paper.

**CHAMPIONSHIP FOOTBALL GAME AT AZUSA FRIDAY**

The Glendale Union High School football eleven goes to Azusa Friday afternoon of this week to play for the championship of the Suburban League. Coach Hayhurst is confident of the result, although Citrus Union High is a strong team. High School fans who wish to attend will be excused on consent of their parents and faculty. Many Glendalians will be there.

## TONIGHT'S MEETING

**MUNICIPAL AND STATE PROBLEMS WILL BE DISCUSSED AT MASS MEETING**

Glendale is fortunate in having the Assemblyman from the 61st Assembly District, a resident of her city. This gentleman is John Robert White, Jr., who resides at 347 North Orange street. Mr. White is aiming to serve as a true representative of the people of his district and with this object in view he has consented to appear at a mass meeting held under the auspices of the Greater Glendale Development Association in the High School Auditorium this, Tuesday evening, and tell briefly what is being done by the state law makers at Sacramento.

Mr. White has also consented to answer questions that may be asked concerning what is taking place at Sacramento during the present Assembly.

City Attorney W. E. Evans will also speak at the mass meeting on municipal questions that are of interest to the people.

Any citizen of the community who wishes to raise a question on any subject for the advancement of conditions in Glendale will have an opportunity to do so at the proper time.

NORTON C. WELLS,
President.

C. D. LUSBY,
Secretary.

## STRIKE ARBITRATOR

**NEPHEW OF DR. COLIN CABLE FROM WASHINGTON, EN ROUTE TO SEATTLE**

Dr. and Mrs. Colin Cable have had the pleasure of a brief visit from Harold Callender, of Washington, D. C., a nephew of the doctor, who is a member of the National War Labor Board, having received an appointment from ex-President Taft, head of the Board, soon after the United States entered the war. He is one of the arbitrators sent out by the government whenever a strike occurs anywhere, to make investigations and report to the Board. He was en route to Seattle and left for the north this morning. He is but 24 years of age, but has had considerable experience with public affairs, as he has been a newspaper man and was on the staff of the "Kansas City Star" before he entered the employ of the government.

**THE SALVATION ARMY**

It has taken the war to force appreciation of the Salvation Army. The valiant service which its men and women contributed toward maintaining morale, the cheer which went with the lowly doughnut, the fearlessness which characterized the work of the organization overseas has brought to the people of this country a new conception of the Salvation Army.

As the people know of its work among the soldiers, so should they know of its work among the poor at home. In California the Salvation Army maintains an industrial home for boys and girls at Lytton where between two and three hundred young people are cared for and made to realize that life holds something for them if they will improve their opportunities.

It maintains two rescue homes in California, at Oakland and Los Angeles, where the wayward girl finds friendship, consolation and a real home with sympathy, love and a helping hand to guide her back to the paths of virtue.

A young women's boarding home is maintained for working girls; a flying relief squadron is always ready to answer every emergency call to succor the suffering, the hungry, the sick and the dying; a great work is done in the prisons; woodyards and industrial homes furnish men who are down and out with jobs. The Salvation Army has done a great war work, but it is doing a hundred per cent. greater work right here at home.

## INFLUENZA OVER

**DR. J. E. ECKLES THINKS IT HAS EXHAUSTED ITSELF IN GLENDALE**

Glendale's health conditions are highly satisfactory at present, according to the testimony of local physicians who seem to think they are more favorable, if anything, than in Los Angeles. Dr. J. E. Eckles says he has not had a case of influenza for several days and he feels quite chesty over it. He says the disease has apparently exhausted itself for the present and it is his opinion that the majority if not all of the population have had a touch of it. In many instances it was so light it was not detected. It manifests itself in different forms and has been followed by quite a crop of peculiar skin conditions and heart conditions. As to what it is and its origin, the doctor frankly admits the profession is as yet in the dark in spite of the careful investigations that have been made by the best pathologists.

**PRIVATE MURPHY GOES TO PHOENIX**

Private Okie Murphy, whose parents live at 620 East California and who was invalided home to the Letterman Hospital in San Francisco on account of his many wounds, has recovered sufficiently to be discharged and got home Sunday. He looks fine and seems very happy to be a civilian again. He went through the battles of Chateau Thierry and St. Mihiel and had wonderful escapes from death. He is going to Phoenix, Arizona, in a few days, where he has friends, and where he has had a position offered him to do electrical work. He was in Co. L, 160th Infantry.

**CHAPTER L MEETING**

The regular all-day meeting of Chapter L of the P. E. O. will be held tomorrow, Wednesday, at the home of Mrs. A. W. Tower, on Adams street. It will be an event of unusual importance because of the fact that the State Organizer, who visits the chapter only once in two years, will be present to inspect its work. The president, Mrs. Bartlett, is requesting all members to be on hand early as she is anxious to open the meeting promptly at 10:30 a. m.

**EDINGERS LOCATE HERE**

P. F. Edinger, recently of Hollywood, has brought his family to Glendale temporarily while he is looking for a suitable location. He lived for several years in the San Fernando Valley and is no stranger in these parts, but he confesses that he came to Glendale because he could not find just what he was looking for in Hollywood. He also says he is willing to confess that they like it pretty well here. They are located at 1200 E. California avenue. If we treat the Edingers right they may be persuaded to stay.

## MRS. ESTERLY RETURNS

**THE SIGHT OF HIS MOTHER AND SISTER DOES CORP. ESTERLY A WORLD OF GOOD**

Mrs. John Esterly and her daughter, Helen, returned several days ago from their trip to San Francisco to visit Corporal W. W. Esterly. They found him full of grit and the determination to get well which will help greatly in his struggle for health. The little remembrances which his friends here sent him were much appreciated and he was as happy over them as a boy with a Christmas stocking. He has gained about 40 pounds since he landed in the United States. His normal weight is about 165 pounds. When he reached New York he weighed only one hundred pounds.

Mrs. Esterly and her daughter found their trip most interesting and met a number of fine young fellows who are recuperating from wounds received at the front. They are all anxious to forget the sights and experiences of war and to get back to normal living and thinking. The Esterlys would like very much to bring the Corporal home, but inasmuch as the army surgeons have the history of his case and are better acquainted with the treatment he should have, he considers it is best for him to remain in the army hospital. Meanwhile it would help him to pass some lonely hours if his friends here would write him occasionally, addressing: Corporal W. W. Esterly, Ward N, Base Hospital, Camp Fremont, San Francisco.

His friends all commented on how much good the visit of his mother and sister did him and how he braced up during their stay.

GLENDALE, CALIFORNIA, TUESDAY, FEBRUARY 11, 1919

## COMMENT OF THE COUNTRYSIDE

Another rain of goodly proportions has freshened the uplands and guaranteed bounteous crops in Southern California this year. According to S. S. Elliott of the Glendale Pharmacy, his almanac predicts fair weather for the balance of this week.

Patrolman McGuire hands us an editorial comment from an exchange which suggests that the striking shipyard workers at Tacoma and Seattle be compelled to exchange places with the soldiers who have been risking their lives for $30 a month. It is the belief of many they would appreciate their $6 and $7 a day wage for common labor a lot better if they served in the army a while and learned the price of freedom.

For the returned soldier, the problem of "hanging on to his war risk insurance" is a puzzle while he is trying to buy civilian clothing and other necessities of life, but Glendale insurance men are urging the boys to do so until such time as they can convert it into the old line policies. The insurance men declare that if a man can't afford to take over the old line payments, he should certainly keep up the government policies for the protection of those for whom he fought.

This afternoon there will be a conference of the local soldiers' employment committee, which is co-operating with City Clerk J. C. Sherer, the federal soldiers' and sailors' representative here. Ways and means of providing work for jobless service men here will be taken up. City Manager T. W. Watson is chairman of the local committee.

Glendale may have to add to its slogan so that it will read: "Glendale, the City of Homes and Motor Cars." It is estimated that there are enough automobiles in Glendale to furnish a seat for each of the 12,000 residents.

## THE MAN WITH ASSURED FAITH

It is indeed wonderful what great good may be wrought for the betterment of a community if there is united action on the part of the people. It is the pulling together on any worthy project that counts. The doubter never gets anywhere. It is the man with an assured faith in winning that keeps the ball rolling in the upward direction.

## HOME-BUILDING AS A CURE FOR BOLSHEVISM

(By L. T. Dernier.)

The greatest menace to world freedom and true democracy, so clearly won today, is Bolshevism, the new name for Anarchy.

Under its influence law and order give way to chaos; pillaging, rioting and vandalism reign supreme. Not alone must the present uprising be quelled, but the people of the earth so educated to its fallacies and terrors as to protect civilization from future contamination.

The masses of this lawless body are the ignorant, the degenerate, the flotsam and jetsam of nations— **the homeless**—led on by master criminals and bandits.

There is but one accomplishment that will stamp out forever this evil, and that thing is home ownership. If every family in the world could own their own home, peace would be permanent, as home is the greatest factor in existence creating good citizenship and the one sure safeguard against Bolshevism.

It has been said, "Did you ever see the red flag of anarchy floating over a man's own hearthstone?" And again, "How much more ready is man to take up arms in defense of his home than he would be for the boarding house."

We cannot hope to attain this goal in entirety, but knowing that every new home is a step forward, we can lend our influence to the march of progress toward ultimate "Peace on earth."

## ROOSEVELT GENERALS

One of the most "unpopular" things Theodore Roosevelt ever did was to take three army colonels and promote them, over the heads of their seniors, to be brigadier generals. The promotion in each case was for distinguished service and exceptional ability. Also, the greatness of the reward was due to a peculiarity of the law. The President, under the law, could not promote a lieutenant to be a captain, out of order, or jump a colonel a few numbers. But he could appoint anybody, even the youngest lieutenant, a brigadier general, quite arbitrarily. It was the smallest and also the largest reward within the direct authority of the President. So these three colonels having deserved extraordinary consideration, he jumped them to the only place he could and made them brigadier generals. Naturally, they all became ultimately major generals, and there was much army jealousy until all their original seniors had finally passed them and been retired for age. Then the jealousy ceased, and with it the criticism.

In the light of subsequent events, however, it is interesting to recall the names of the three colonels who became the "Roosevelt generals."

They were: Colonel Leonard Wood, Colonel Frederick Funston and Colonel John J. Pershing.

## SOUTHLAND TO BE AERIAL CENTER OF UNITED STATES

"The future of the air service will develop as the developments progress in the California fields," said Major Jefferson A. Davis, formerly prominent San Diego corporation attorney, now a member of the staff of Major General William Kenly, head of the United States air service.

The principal air stations of the future, he says, are to be in California. North Island is the first field of the country now, according to Washington statistics, with March and Mather fields following in succession. Major Davis' hope is to see North Island the West Point of the air service, with permanent improvements rather than temporary structures.

In his work with General Kenly, Major Davis has been in constant association with Colonel Clarence C. Culver, a brother of Harry C. Culver, local realty man. What he consider's the world's most remarkable invention—the radio telephone—is the work of Colonel Culver, and with this, and the remarkable achievements of General Kenly, America has easily been a leader in aeronautics, he says. By the radio telephone a squadron of planes can be directed while many miles away from the transmitter, as was the case at the San Diego aerial circus, where 200 ships received their orders from a central telephone on the ground.

"The United States has in every way exceeded its air service quota," Major Davis said. "According to Premier Clemenceau's request, we were to have 5,000 trained aviators and 2,000 planes a month. When hostilities ceased we had more than that number. In two weeks after the time the armistice was signed we would have been bombing Berlin.

During the year there will be in operation between New York and London an aerial merchant marine, which will make the trip over the Atlantic in twenty-four hours, believes Major Davis, who bases his statement upon that made by the famous British ace, Colonel Bishop. The government is working on plans for such a merchant marine at the present time.

Major Davis gave up his candidacy for congressman to enter the air service last September, and was at first scheduled for the judge advocate's office. A few weeks ago he was expected to go to London as air service attache to the American embassy, but an attack of influenza, whom which he has just recovered, intervened. He is now in his way to San Diego.

# GOV. LYNCH URGES WEST TO LAST BIG LOAN DRIVE

To the Citizens of the
Twelfth Federal Reserve District:

The Fifth "Victory" Liberty Loan is in sight. Let us thank God that it is not just the Fifth Loan. Victory means the end of the war, the end of loans, the dawn of peace and prosperity. It means that the market price of government bonds will soon stabilize at par or better. It also means that commercial, agricultural, and industrial affairs will stabilize, and that the Hun-inspired clamor will cease.

JAMES K. LYNCH
Governor, 12th Federal Reserve District

We were advised that the war would last through 1919, probably through 1920, so we were prepared for that; to have done less would have been suicide. We prepared to crush the Hun on his own ground, and he prudently quit. It cost us some money but it saved the lives of half a million of our men. Was money ever better spent?

Now we have bills to pay, promises to make good, our men to bring home. This will take from five to six billion dollars. Let us get ready and raise it. A big task, but the last, and therefore easy. All together, shoulder to shoulder, and the loan goes over!

The "Ninety-first" is the Pacific Coast Division; remember their achievement, and honor ourselves by living up to it.

JAMES K. LYNCH,
Governor, Federal Reserve Bank of San Francisco; Chairman, Liberty Loan General Executive Board, Twelfth Federal Reserve District.

## Personals

Miss Gladys Justema of Central avenue is spending the week at Hollywood with friends.

Mrs. L. M. Baker of 217 North Cedar street has returned from a visit to relatives in Tehachapi.

Mrs. George Bancroft, mother of Mrs. H. Edgar Fry, of Cerritos avenue, is about again after quite a serious illness.

Mrs. Mark Fox and little son of Santa Ana are visiting at the home of Mr. and Mrs. W. W. Shaver, 328 N. Howard street.

Burbank schools opened yesterday for the first time since the influenza epidemic closed them during the middle of October.

Mr. and Mrs. Nix of Colorado, who purchased a house on Gardena avenue two or three years ago as a winter home, have returned and are now occupying it.

Mr. and Mrs. L. Earl Starkey of 120 South Belmont street, have named their baby daughter, who arrived about three weeks ago, May Florilla Starkey.

The many friends of Mrs. A. L. Pack will learn with sincere regret that she has had a nervous breakdown. She was taken sick Friday and is confined to her bed.

Miss Gladys Allewelt of 331 West Lexington street, who is attending the Comnock School of Expression in Los Angeles, spent the week-end at home and brought a chum with her.

Mr. Frank Echols, of the firm of Roberts & Echols, druggists, is in Coachella Valley this week, looking after his ranch interests there. Mr. Echols is one of several Glendale men who are farming in this fertile valley during their spare business hours.

Mrs. Clara Hamilton reports that her soldier son, Don, is now with the army of occupation and when he last wrote her was expecting to reach Coblenz in a short time. He does not seem enthusiastic about seeing Germany and is hoping his regiment will soon be slated for return.

Mrs. H. M. Doll of 727 South Louise street is rejoicing over her good fortune in getting back a ring which she lost last week. An ad in the Glendale News brought an immediate restoration. It was a wedding ring and a greater loss to her than its intrinsic worth.

Frederick Borncamp, son of Mrs. Edward Borncamp, of 609 North Louise street, who was in the aviation service at Mather Field, near Sacramento, has received his discharge and has come home. His brother, Robert Borncamp, is still in France at Toul and does not know when he will be sent home.

Mrs. Mary Norman, of Union, Iowa, and her three children, are guests in the home of Mrs. Norman's father, N. C. Gibbs, of 110 North Cedar street. She expects to be here for several weeks. It is her first trip to California and she is much delighted with what she has seen thus far.

A series of dinner parties have recently been given by Mr. and Mrs. J. G. Huntley to old friends here and in Los Angeles at which about forty were entertained. Scarlet and green featured floral decorations and table appointments at all of the functions which were followed in each case by an evening of music.

W. D. "Poll" Perritt, well known by Pacific Coast League baseball fans here, will be glad to hear of his entry into the oil game. He is now connected with a company operating in the Claiborne, Louisiana, field. Perritt left the coast league for the New York Giants. He visited Glendale many times while playing in Southern California.

Mr. and Mrs. Joseph Whytock state that their son, Norman Whytock, who was in the hospital for a time, has recovered and is now with his regiment again. They know no particulars of his work overseas as he does not enlarge on his experiences in his letters, but from the information they receive through their other son in the intelligence department they expect he will soon be on his way home.

Sunday there was a double birthday celebration at the Esterly home in honor of the natal days of Miss Helen Esterly and her brother, Alvin J. Esterly. It was a house party with a dinner served at noon and a supper in the evening. Red, yellow and green featured the floral decorations of the table and of the handsome birthday cake on which seventeen candles were burning. Covers were laid for Mr. and Mrs. John Esterly and daughters Helen and Emma, Mr. and Mrs. A. J. Esterly and daughter Anna May and son John, Miss Hattie Beckman of Long Beach, Gordon Woods of Los Angeles, Grace McPherson, also of Los Angeles, Mr. and Mrs. William Bowman and their sons Fred and Alfred Bowman.

Mrs. Barton Ellison of Cerritos street has been quite ill for a week and is said to be suffering from a slight stroke of paralysis.

R. M. Jackson, of 244 North Maryland, is said to be somewhat better. He was able to sit up for a short time Monday, but is still very weak.

The house at 330 West Eulalia formerly occupied by the Baileys has recently been leased to Mr. and Mrs. Sinclair, who are relatives of the Sinclairs on Gardena avenue.

### CHANGES IN YARBROUGH HAT SHOP

Quite a transformation is taking place in the shop of Mrs. Grace Yarbrough, the milliner. The interior is being repainted in ivory, the walls are to be retinted and decorated by Jacob Fink in a special design. The rear trying-on room has been opened up by the removal of a large plate-glass mirror which has been let into the wall of the rear room, the French doors flanking either side of the opening as decorative panels. It is going to make a very handsome interior. Mrs. Yarbrough believes it is as necessary to have occasional change and variety in surroundings as it is in clothing and that it is all stimulating to the mind.

### SUNDAY SCHOOL TEACHERS' MEETING

St. Mark's Sunday School Teachers' meeting will take place on Wednesday, Feb. 12th, at the home of Mr. and Mrs. Downing, Hawthorne street.

All teachers, officers and interested parents are requested to be present. Important business to be transacted.

### STATE NEWS

(By United Press)

BAKERSFIELD, Cal.—The State Railroad Commission will today take up again the "pipe line case," instituted by J. W. Jameson against the Standard Oil Company, the Producers' Transportation Company and the General Pipe Line Company of California. Edwin O. Edgerton, commissioner, will preside at the hearing which is to be held at the courthouse here. Jameson asks that the commission establish rates and rules for the operation of pipe lines owned by these companies carrying crude oil and petroleum products to points near San Francisco and Los Angeles and to other markets. Jameson declares in his complaint that he is only one of many who are at the mercy of the pipe line owners, who because of their connections with the pipe lines wholly monopolize and control the entire production of oil. He asks that the commission declare the pipe lines common carriers and fix a charge for service and regulate such service as to prevent monopoly.

MARYSVILLE, Cal. — Climbing poles for electric globes is the latest winter sport now being practiced in Butte county by some unknown persons who are trying to take a kink in the H. C. L. It has been reported to authorities that two streets are absolutely devoid of electric light globes. As yet no light has been thrown on the subject as to whom the offenders may be.

### LIBERTY FORUM

LOS ANGELES, Cal.—San Pedro wants a place where anybody can talk about anything without fear or favor, to be called a "Liberty Forum."

It will be located in open air.

The plan was presented to the city council in the form of a petition with the endorsement of leading citizens, fraternal bodies, banks and commercial organizations.

The forum will be "available to all citizens and dominated by none," and would be used in particular for public meetings, general discussion and concerts.

SUPPER—By Philathea Class of Tropico M. E. Church at Yeomen Hall, 1500 San Fernando Road, Thursday evening, Feb. 13th, from 5:30 to 7 o'clock, 35c. Everybody come. 134t4

## CROIX DE GUERRE

### RECEIVED BY CORPORAL R. C. JORDAN, NEPHEW OF MRS. RUBY SMART OF GLENDALE

Mrs. Ruby Smart, of this city, feels very proud of honors which have come to her nephew, Corporal Richard C. Jordan, who has just received the French Croix de Guerre, with palm, for distinguished service in the Champaign sector He is the son of Mrs. Smart's only brother, who is general field secretary of the Asbury Hospital of the M. E. Church at Minneapolis, Minn. The citation of the French General Staff reads as follows:

"Corporal Jordan during the attack on the 3d of October, 1918, volunteered with three comrades and attacked a machine gun nest which was infilading the flank of the company. He attacked the occupants with grenades and rifle fire, killed them or made them prisoners, took three machine guns, thus permitting his company to continue their advance."

Corporal Jordan was in most of the historic fighting of the Sixth Marines except that he spent some weeks in the base hospital recovering from wounds received at Vierzy in the drive on Soissons. He wears the badge of a sharp shooter.

Some of his letters which are most interesting, have been forwarded to Mrs. Smart. In one, addressed to his mother and dated October 13th, he writes:

"Just a few lines about our stay at the front. I am sure all your prayers are being answered, for I didn't have the fear that I had the last time. The Lord certainly was good to me, for He brought me through without a scratch. We went over the top two or three times and it was a great experience. It's a great sight to see the Germans put up their hands in great crowds. The first morning over the top we surprised some for they were still in their dug-outs in bed. The corporal of my squad was killed just a few feet from me, and from our objective. I surely hated to see him go, for he was a friend of everybody! The only thing I didn't like about him was his drink habit, and he had that bad. I was one of the detail that buried him, and as luck would have it, a chaplain happened along and administered the funeral service. It certainly was impressive, and all the time this was going on shells were falling. (I will write more next time for I have lots of letter writing to do).

"Hope you are all well, as I am feeling fine, and glad that I am alive."

In another letter, dated October 16th, he says:

"Speaking of the water over here, I find it O. K. and as to drinking wine they have here, it tastes like vinegar and water so it doesn't bother me. In Southern France the water is not so good, and has to be sterilized before we can drink it. These French people can make a meal on a bottle of wine and a little bread and cheese, but we very seldom see a drunk person among them. They surely have good cheese over here and I am very fond of it. Several of us go in together and get a French woman to cook up a feed for us which doesn't cost much, and is a sure treat. I am just wild over the French fried spuds. I guess the French think us Americans are some spendthrifts, or money spenders for every time we hit a town there is a raid on the stores. The chow we get has been good; but you know it gets tiresome eating plain stuff all the time. I never was so glad to see the Chow wagon as I was up on the front. We had been almost a week without a hot meal, and Sunday noon the mess agent came up with a hot chow. I felt like hugging him, I was so glad. That same day we heard of the peace rumor, so we were all in a happy mood. During the two weeks we were gone I washed my face only once, so you can imagine what a sight I was when we got back. The town we stopped in had a place where we could get a shave and hair-cut, get a hot bath, get clean underwear, and have our clothes put through a sterilizer to kill the "cootie." They sure are a pest. I think I had 57 varieties of them all working over time, especially at night. When we went over the top we had to leave our blankets, so after we gained our objective I salvaged four German blankets, and I guess that is where I got my cooties. I certainly am glad that I had the chance to go through it all O. K. for it was a great experience. The whole time was just full of thrilling events; many queer sights as well as horrible. I am glad we are getting the Germans where we want them, and I hope that before it is over with we can make them pay the penalty for all this destruction. I wish you could see some of it. I sure feel sorry for the poor French people. I met a lot of refugees who just came from a city we captured from the Huns. They had been living under the rule of the Germans for four years."

### ROOMS ARE HARD TO GET IN PARIS

By HENRY WOOD

(United Press Staff Correspondent)

PARIS, Jan. 24. (By Mail).—Though Paris has 15,400 hotels and rooming houses, with an additional 8,500 in the immediate suburbs, a room is hardly to be had at the present time for love or money.

The French government has tactfully invited everybody who was coming to the peace conference merely out of curiosity, to please come at some other time. Orders have been issued to the French consular and diplomatic officers all over the world to vise passports for Paris only for persons who can demonstrate that they have some serious necessity for coming.

It has not been decided whether the shortage of hotel accommodations in Paris is due to some unexplainable mystery or to perfectly natural causes.

Many of the largest hotels have been used as hospitals ever since the beginning of the war, a few are used as ministries and underministries of the French government, such as aviation and munitions; and more recently several have been taken over by the American Red Cross, the Y. M. C. A., Y. W. C. A., Knights of Columbus and various departments of the American expeditionary force.

Most of the hotels thus taken have been the largest and most exclusive in Paris, those that before the war catered to the wealthiest travelers, who have been staying home since 1914. However, all the hotels thus accounted for probably do not exceed 40 or 50 in number.

More serious element in the situation is the hundreds of thousands of refugees from Belgium, northern France, Serbia, Italy and other invaded countries, many of whom have been making their homes in Paris since the beginning of the war. While it is now possible for these to remain in Paris, where they are sure of getting enough to eat, until materials can be had for rebuilding their homes. These people fill up several thousand of the hotels and rooming houses.

Then there are at all times about 6,000 French officers, 8,000 American officers and big contingents of English, Belgian, Italian and Serbian officers in Paris on leave.

Recently the situation for these has become so acute that a society has been organized among the wealthiest French families to place rooms in homes at the disposal of American officers on leave.

The shortage of rooms naturally has resulted in an increase in rates. Rooms that before the war cost $2 a day now cost $5 or $6.

### STATE INDUSTRIES

The first step towards establishing a permanent annual display of state industries will be realized in the forthcoming California Industries and Land Show to be presented in San Francisco, October 4th to 19th, by the Home Industry League of California.

The Land Show will be devoted to the exploitation of resources of California and its purpose is that of developing its producing power, both agricultural and in manufacture.

Only California products for exhibition will be admitted to the California Industries and Land Show. The show will be given under canvas at Eighth and Market streets, the scene of former land shows in San Francisco, and will cover an area of two hundred thousand square feet.

The various departments will be arranged to include county exhibits, manufactures, agriculture and horticulture.

Under the direction of Edward H. Brown, manager of the Home Industry League and originator of the very successful land shows of 1913 and 1917, the 1919 Land Show will be presented in new and original designs and decorations.

He made the former Land Shows famous for their artistic arrangement, through utilizing California redwood for the interior which when completed, had all the appearance of a huge forest with unique lighting; so Mr. Brown will present in the forthcoming show a new design equally picturesque and elaborate.

In addition to establishing the land show as a permanent annual event for the State of California, it is the purpose of the land show committee and manager to make a special effort through this medium to attract tourists to San Francisco each year during October.

At a recent meeting of the Board of Directors of the Home Industry League F. D. Fagan of the Edison Lamp Works of the General Electric Company was made chairman of the Land Show committee which includes also F. L. Washburn, president of the Western Meat Company and Roy R. Rogers, vice-president of the League and president of the R. R. Rogers Chemical Company. Other committees will be appointed at a later date.

"I regard no time as propitious for a Land and Industrial Show as the year 1919," declares Manager Edward H. Brown. "When California was put to the test during the war she was found more than equal to the task put upon her of furnishing much of the food supply of the world."

"Californians were not surprised at what their state achieved so cheerfully and so successfully, but the world at large was. Now is the time to show visitors who will be here in numbers this year, just how California accomplished what she did and what her wonderful resources really are. This the Land Show will do."

### YANKEES WILL GO TO SCHOOL IN ENGLAND

LONDON, Jan. 26. (By Mail).—British universities are preparing to receive as students hundreds of American boys who discontinued their college courses to go to war.

The students will be received under a plan formed by government authorities in consultation with American army officials.

More than 250,000 American boys are continuing their studies at American schools established behind the lines in Frances. The number of schools is to be increased to 3,000.

The war zone schools were established and are being operated under direction of the Y M. C. A. which registered more than 47,000 teachers in the U. S. fighting forces.

TALKEETNA, Alaska. — Citizens of this place have petitioned the Alaskan Engineering Commission that government township lots in Talkeetna be placed upon market. The townsite of Talkeetna, which is 126 miles north of Anchorage on the government railroad, was platted last summer by representatives of the United States land office.

In jails and penitentiaries in California the Salvation Army during 1918 conducted 12,382 meetings with an attendance of 627,800. The records show that 4923 discharged prisoners were helped last year with either positions, tools, beds, meals, clothing or transportation.

## TO FIGHT BOLSHEVISM

### LUTHERAN CHURCH IN UNITED STATES ORGANIZES FOR WORK OVERSEAS

The Lutherans of America believe they can go Congress one better in fighting the Bolshevism of Europe. Instead of fighting it with bodily food, they propose to fight it with spiritual food.

The National Lutheran Council has been organized representing 1,500,000 Lutherans for reconstruction work. Its main object is overseas, in the countries in which Lutheranism is strong, from France eastward to the Baltic and the Black Sea provinces.

The Lutheran Church is in severe straits in all those countries. Its difficulties are many. Since it was a state church the collapse of the autocratic states has removed its support and backhold. And as an independent body it is thrown upon its own weakened and helpless condition, just as the four million slaves of the South when set free by Lincoln's great proclamation. Hence, they need help at once.

It is felt here in America that if we can get the help into the various parts of Europe where needed most, to re-establish the Lutheran Church there upon a solid and sound basis, the nightmare of Bolshevism will have the strongest bulwark against her ravages.

This conviction is based upon the fact of there being over 60 million Lutherans in the affected countries. And if they can be encouraged to stand together upon a program of orderly progress and liberty, they can control the situation there rampant today.

The National Lutheran Council has presented its plans to leading American public men. They also see the possibilities and urge that efforts be made. Among them are Vice-President Marshall, Secretary of the Navy Daniels, Governor Smith of New York.

The plan is to send commissions to Europe to get in direct touch with conditions and influential men, telling them how the American Lutheran Church is maintained in her church life independent from the assistance of the State, then give them assistance to establish the same in Europe.

Other Protestant bodies are now planning to come to the assistance of their own church people in Europe. But the weight of this burden falls especially upon the Lutheran Church because by far the preponderance of Protestantism in Europe is Lutheran, and the Protestantism of the world is influenced largely by that in Europe.

Now to meet this great European demand upon the Lutherans in America the National Lutheran Council is organizing a great nation-wide campaign "drive" for this overseas service, beginning Sunday, Feb. 16th, for the ten days following.

In Los Angeles on next Sunday afternoon at 3 o'clock in the First Lutheran Church, corner Eighth and Flower, there will be a Great Lutheran Mass Meeting, to bring information and enthusiasm to start this whirlwind campaign with the Rev. C. E. Hoffsten speaker, who is the Western Field Secretary of the National Lutheran Commission. All Lutherans and friends within this vicinity are urged to be there.

### WAYS OF USING ORANGES

**Orange Marmalade**

Wash, wipe and slice thin five oranges and three lemons; weigh. To each pound of the fruit allow 1½ quarts of cold water. Set aside for 24 hours, then bring rapidly to the boiling point. Boil violently 45 minutes. Set aside for another 24 hours, then weigh again; bring to the boiling point. To each pound of fruit with the juice, allow ¾ pound sugar, and juice of two lemons. More lemon juice may be added if desired. Boil 45 minutes, timing from the moment the marmalade begins to boil. Place in glasses.

A clear jelly may be made from the strained juice.

This marmalade made from frozen oranges is cloudy in appearance, but good to the taste. Recipe makes about 16 glasses; beet sugar was used. If a thermometer is used for testing, it should register 220 degrees F.

**Candied Orange Peel**

Wash and wipe the oranges, remove the peel, cut it into ¼ inch sections lengthwise with a pair of scissors. Cover the rind with cold water. To each pint of water allow 1 level tablespoon salt. Bring slowly to the boiling point; boil 15 minutes; drain off water. Repeat the process four times, omitting the salt. During the final boiling, cover the kettle and boil 20 minutes. Drain thoroughly. Place in a shallow graniteware pan; cover with a heavy sirup made by boiling 2 cups of sugar with ½ cup water together for 10 minutes. Gently cook the rind in the sirup until clear; then remove from the sirup; drain well. Roll in coarse, crystal sugar, pack in shallow air-tight tins or jars. The rind may be placed in jars with the hot sirup. Sterilize for 10 minutes, tighten covers. Keep as you would canned fruit. Reheat, drain off the sirup and roll in sugar. Fine to use in fruit cake or steamed pudding.

The orange rind may be cut into halves or quarters, crystalized and dried. Keep in covered jars.

**Orange Sauce to Serve with Hot Puddings**

Three tablespoons butter, 1 cup pulverized sugar, pinch salt, grated rind of ½ orange, juice 1 orange, about ¾ cup.

Cream the butter and sugar together; add salt, rind and juice of orange. Beat until light. This sauce may be changed by omitting the butter, beating the white of an egg until stiff, gradually add the sugar; then fold in the rind and the juice of the orange.

**Orange Icing**

One cup pulverized sugar, pinch salt, ½ tablespoon grated orange rind, 3 tablespoons orange juice; a little hot water.

Mix in the order given; spread well; spread while the cake or cookies are still warm. This icing should be thick. If it is too thin add more sugar. More orange juice may be used and less hot water.

**Orange Gelatine**

One-half box gelatine or 2 tablespoons granulated gelatine, ½ cup cold water, 1½ cups boiling water, ¾ to 1 cup sugar, 1½ cups orange juice, 2 tablespoons lemon juice, ½ tablespoon grated orange rind.

Soak the gelatine in the cold water until soft; add the other ingredients. Heat until thoroughly dissolved. DO NOT BOIL. Pour into moulds; allow the gelatine to harden.

Japanese gelatine, or agar-agar makes a delicious orange gelatine, but it is not transparent. This vegetable gelatine can be boiled and will "set" in a warm temperature.

One cup of the agar-agar, wash and remove water. Cut into small pieces; allow three cups of water, orange and lemon juice, mixed; sweeten, heat to boiling point for 10 minutes; pour into moulds, allow to harden.

**Orange Filling for Layer Cake**

One-fourth cup sugar, 2 tablespoons flour, 1 tablespoon grated orange rind, pinch salt, ½ cup orange juice, 1 teaspoon lemon juice, yolk 1 egg.

Mix in the order given, cook over hot water until thick and creamy, stirring occasionally. The yolk of the egg may be omitted and one-half tablespoon more flour added. If the orange juice is sour, add more sugar.

**Orange Filling for Pie**

One tablespoon lemon juice, 1 cup orange juice ½ tablespoon grated orange rind, pinch salt. Heat and pour over ½ cup sugar mixed with 3 tablespoons flour.

Cook until thick, and smooth, then beat in yolk of 1 egg and one-half cup finely cut walnut meats. Fill a pastry shell with the mixture. Make a meringue of the stiffly beaten white of the egg and 2 tablespoons of sugar. Spread lightly over the pie. Bake in a cool oven until the meringue is crisp.

**Orange Sponge**

One and one-half tablespoons granulated gelatine, one-third cup boiling water, pinch salt, ¾ to 1 cup sugar, 3 tablespoons lemon juice, 2 cups orange juice, grated rind ½ an orange, well beaten whites 2 eggs.

Soften the gelatine with the cold water, then add the boiling water, salt, sugar, lemon and orange juice. Thoroughly dissolve the gelatine by beating. Cool. As the gelatine thickens, beat with a whip and gradually fold in the whites of the eggs. This should be sponge like. Be sure to blend the gelatine well with the egg whites. Make a custard of the egg yolks.

**Orange Ice**

Four cups boiling water, 2 cups sugar, 2 cups orange juice, ¼ cup lemon juice, grated rind 1 orange, pinch salt.

Boil the water and sugar together for 10 minutes, cool, add other ingredients, freeze. This will serve from 10 to 12 portions. Orange ice cream is delicious.

The orange may be used alone or in combination with other fruits to make marmalades or jams—rhubarb, strawberries, grape fruit are fine to use. A fine sirup with a custard, sliced and broiled, and in many other ways.

Advertise it, or advertise for it in the Evening News.

### CONGRESS TALKS OF AID TO HEROES

WASHINGTON, Feb. 11. — Congressmen have been introducing bills to aid discharged American soldiers ever since the armistice was signed. If a tenth of these bills had passed, the soldiers would be well looked after. But to date, only one has gone through the house. It allowed enlisted men to retain their uniforms and overcoats, gives them a month's pay as a bonus and five cents a mile as a transportation charge.

A dozen or more bills have been introduced covering the pay bonus. They range from one month to six.

Among the hundred or more pending relief measures are these:

To establish a sanitarium in Ken-

To furnish uniforms and equipment to officers in the navy at cost.

To provide hospitals for discharged soldiers and sailors at marine hospitals and Fort Staunton, N. M.

To authorize payment of allotments under war risk insurance out of pay when payments have been discontinued.

To lift restrictions of the homestead law touching soldiers.

Authority to pay salaries of members of congress discharged from the army.

Authority to grant furloughs to enlisted men to work on farms.

To extend use of vocational rehabilitation fund and authorize acceptance of gifts.

To make effective recommendations for promotions which had not been carried out when the armistice was signed.

Granting increase in rank to certain officers of the army, navy and marine corps who served overseas.

### NOTICE

OF THE RECORDING OF THE ASSESSMENT AND DIAGRAM FOR THE OPENING AND WIDENING OF SYCAMORE CANYON ROAD (FROM SINCLAIR PUMPING PLANT TO THE SOUTH CITY LIMITS OF THE CITY OF GLENDALE), AS CONTEMPLATED IN ORDINANCES 295 AND 296 (South City Limits of Glendale Before Consolidation of the City of Tropico).

Notice is hereby given that the assessment and diagram for the opening and widening of Sycamore Canyon Road, as contemplated in Ordinances Nos. 295 and 296, (from the Sinclair Pumping Plant to the South City Limits of the City of Glendale south limits before consolidation with Tropico) was recorded in the office of the City Manager and Ex-Officio Street Superintendent of the City of Glendale on the 1st day of February, 1919. The date of the first publication of the Notice is the 5th day of February, 1919.

All sums levied in said assessment are due and payable immediately, and payment of said sums is to be made to me in my office at the City Hall, in said City, within thirty (30) days after the said date of the first publication of this Notice, to-wit.: On or before the 8th day of March, 1919.

All assessments not paid on or before the said 8th day of March, 1919, will become delinquent, and thereupon five (5) per cent. upon the amount of each such assessment will be added thereto, and the property advertised for sale as provided for by law.

T. W. WATSON,
City Manager and Ex-Officio Street Superintendent of the City of Glendale.
